

To,

Hawkins Limited,

This is my Biggest goal of life with starting these (Job) good opportunities in Hawkins as a management Trainee (Technical) on Hawkins (Cooker) privated Limited projects in my current post, this position allows me to use my potential & technical experience for higher impact. I'm eager to combine my professional talents with my technical (engineering) skills to create designs for building OR factories.

I like to do this job because my technical & skill can help to growth & expansion your Hawkins company. I also see the opportunity for me to learn & grow my engineering professional skills, so we both would benefit personally, professionally & financially.

If I can come to Hawkins Cooker limited & solve problems & accomplish your target.

"Also, I like the Culture of this organization. From what I've heard & what I've been reading about the company, it seems like a great fit for my personality & my values. I really connect with your mission statement, & feel passionate about the work that you do."

Thankyou,
Ritik Gayde
